COMPRESSOR SPARE PARTS & SERVICE KITS

GENUINE PARTS. MAXIMUM UPTIME.

Keep your compressor efficient, protected, and easy to maintain. Supa-Air supplies OEM-quality parts, service kits, and rebuild options for the full Supa-Air range — from 7.5kW to 355kW. We manufacture the machines. We know every component inside them.

GENUINE OEM

SUPA-AIR GENUINE PARTS

01

AIREND ASSEMBLIES & ROTORS

- Factory balanced, precision-machined air ends
- Fast turnaround on full replacements
- Rebuild and exchange programmes available
- German air-end technology – SKF bearing specification
- New Generation 5:6 Lobe Profile Rotors

02

FILTERS & SEPARATORS

- Air intake filters – dust protection for all environments
- Oil filters – low pressure drop for system efficiency
- Oil/Air separators – residual oil $<3\text{mg/m}^3$
- All filters model-specific – correct fit guaranteed
- Built to German specifications for reliability

03

BELTS, COUPLINGS & DRIVES

- High-strength V-belts – matched sets for balanced load
- Flexible couplings to reduce vibration transfer
- Supplied in matched sets for correct tension
- Model-specific sizing for direct replacement

04

VALVES & REGULATORS

- Minimum pressure valves for system stability
- Check valves and pressure-control valves
- Inlet / suction valves – new reliable design
- OEM spec for long life and direct replacement

05

SUPA-46 COMPRESSOR OIL

- Formulated for South African climate conditions
- Meets DIN-50506 VDL standard
- Available in 5L, 20L, and 200L drum
- Reduces friction and wear – protects all components

06

ELECTRICAL & CONTROL

- PLCs, sensors, and display replacements
- Plug-and-play replacements – no rewiring required
- ABB & Siemens switch gear across models
- Pressure and temperature sensors
- Phase protection relays

SERVICE INTERVALS:

500 | 1500 | 3000 | 4500 hours

Alternating between minor and major every 1 500 hours.

HOW TO ORDER:

Contact us with your compressor model number and serial number — found on the machine nameplate — and we'll confirm part availability, pricing, and lead times.

OEM-OWNED. OEM-PROUD.

We manufacture the machines. We know every component. Using genuine Supa-Air OEM parts maintains your warranty, and protects the investment you've made in your compressor.
